CLASS HISTORY

Early one September morning in 1941, eleven mothers breathed a sigh of relief as their little darlings trooped off to their first day of school. This bewildered group was: Gail Morse, Tom Rogers, Connie Ryan, Ray Harrington, Bob Myers, Howard Veon, Eddie Delmore, Gary Wolfe, Mary Ann Fickeisen, Joyce Griffiths, and Norma Grissom. These students are finally members of the wonderful class of '53.

In second grade the same group was still struggling along together.

Helen Koehler arrived from Cleveland to make our third year more complete.

Marge Hawley brought forth her argumentative mood when she reached us from Northampton in fourth grade.

Fifth grade passed with the usual shuffle of classes and no new additions to the class.

Bob Ogilby blew in from New York State in the sixth grade. He departed from Hudson in his freshman year, when he attended the Academy until his junior year.

Bob Wernli from Iowa and Darlene Bock from Lakewood brightened our seventh grade class.

Connecticut lost when we gained Ann Walbridge and Diane Stewart in the eighth grade. Diane left for Laurel in her junior year, but returned in her senior year.

The freshman year brought us the group from Northampton which we fondly call the "Northampton Hoodlums", better known as Dick Grether, Bob Grether, Dale Klever, Tom Richter, Ronnie Myers, Patsy Phillips, Beverly Hume, Richard Bradach, Chuck Oliver, Ellen Whalon, Jackie Stump and Shirley Pay. Edwina Donavant and Bob Amity sought our class from Akron and Margaret Johnson drifted in from Connecticut. Martha Krasinski's arrival coincided with the conclusion of the freshman year.

Katie Gill arrived from Ravenna, Pete Pope from Illinois, and Bill Vejchar from Cleveland in the sophomore year. That year we worked hard to sponsor the annual May Day Dance.

The busy junior year brought us three more welcome faces, Pat Stone from Springfield, Rollie Rumiser from Cuyahoga Heights and Geraldine Hale from Aurora. Geraldine was drawn to London, Kentucky, the first part of the junior year, but returned in time for her senior year. We presented our production of "One Foot In Heaven" and the unforgettable Junior-Senior Prom.

Hugh Sinclair, Charlie Held and George Parry took up their books at Hudson after leaving the Academy in their senior year. Delores Fischer, our last addition, came from Akron. As money-making projects for our trip to New York City, we sponsored tasty dinners, paper drives, and we even washed cars. Our last big event for the year was our senior play "Mother Is A Freshman".

As we pay our last respects to the halls of Hudson High, we look back upon the fond memories of the years spent within its walls.

CLASS PROPHECY

The time is May 31, 1960, and again the 1953 class of Hudson High is holding its annual reunion. The main ballroom of the Dirty Arms Hotel has been rented for this auspicious occasion. Eventually the conversation was pin-pointed to the interests and professions of the alumni. Here is a summary of how the class of '53 is progressing in their professions.

Gail Morse is taking piano lessons, and she feels that if she gets to be good enough, she may even become president.

Ellen Whalon, one of the country's greatest torch singers, will be singing at one of Akron's prominent night spots. She is known as a chiropractic singer. She sings in all the joints.

Gerry Hale has a television cooking school. When asked about the ingredients in one of her delicious meat sauces, she said it held the usual ingredients: butter, flour, lemon juice, a few shakes of paprika, and she thins it with water.

Jackie Stump, with all of her domestic duties taking care of her husband Roger, has just been elected constable of Northampton.

Norma Grissom, after much deliberation, has entered her career of driver training teacher at Hudson High School.

Helen Koehler's musical ability has finally paid off, and she has been elevated to assistant page turner with Charles Held's Orchestra, now playing at the Greasy Spoon Bar and Grill in Dismal Seepage, Ohio.

Joyce Griffiths received her sheep skin from Mrs. Murtz's College for Eligible Bachelor Girls. She operates her own Beauty and Poise Parlor in downtown Hudson. Joyce advertises that she can put a new top on an old chassis.

Dale Klever has turned to politics and has raised himself to mayor of Northampton.

Bob Ogilby's acting ability has finally brought him success. A Hollywood studio took him under contract.

Edwina Donavant operates a lonely hearts club and has become an authority on the art of holding a mate.

George Parry is a retired "wolf." The thought of marriage has occurred to him, but so many girls aren't receptive.

Ann Walbridge has written a book in her spare time entitled, Mathematics Made Simple. She has been nursing this idea since she left Algebra class without having found what X equalled.

Margaret Johnson is married to Uriah Squad, and lives in the small village of Sombre Corners, Ohio, with their six little cheerleaders. Margaret lives in Sombre Corners for a very definite reason--she hasn't the money to get out.

Diane Stewart teaches math classes at Western Reserve Academy. What she likes best is the aftermath.

Roland Rumiser now owns the Rumpot Rumiser Motor Corporation which manufactures the Rollie 98's, designed to eliminate backseat drivers. They're extra wide so that eight people may sit in the front seat.

Pete Pope is very busy these days. He is trying to prove his theory that science is greatly aiding business. One of his arguments is, "Look what the law of gravity has done for the suspender business."

Richard Bradach has finally been advanced in his job at the Acme Grocery Store. He's now a checker-outer at the sixth counter next to the broom and soap flakes department.

Bob Wernli lives in Rhode Island where he bought a small farm. However, he discovered that it was stocked with Rhode Island Reds, and has asked the Un-American Activities Committee to start immediate investigation.

Gary Wolfe is happily married to the former Pat Stone. When this reporter interviewed Gary, he found that Pat had taken a short vacation from her everloving husband and thirteen children.

Tom Richter has finally found a sure-fire way to stay out of the Army. He joined the Air Force.

CLASS PROPHECY

Dick Grether invented an airplane with canvas wings which flap. Passengers are admitted for a fee of fifty dollars which includes one pilot, a small can of propeller oil, and prayer books for everyone.

Mary Ann Fickeisen has made a name for herself in the social world and is noted for her lavish parties. At the last social gathering in her Knob Hill home the city offered guards to protect the gems of the guests. It was the first gem session in the neighborhood for years.

The futuristic talents of Pat Phillips have begun to take shape. She has published a new predigested news magazine soon to appear on the news stands. You don't read it; you swallow it whole.

Connie Ryan has gone into an unusual profession. A lady dentist, she has developed a new type of false teeth made from phosphorescent material. It gives her customers that flash in the pan.

Howard Veon has made a success of himself and is known as the nation's number one pretzel bender. He likes his job and is wrapped up in his work.

Shirley Pay models corsets in the M. O'Neil Company's store windows and is demonstrating toothpaste, mattresses, eye shadow, and corn plasters on the mezzanine. Your friend and mine, Marge Hawley, has reached her goal and is teaching in a one-room school house in Polecat Valley, Florida. Marge is teaching her classes how to get into more intelligent trouble.

Tom Rogers, a hard working asset to Bissells Ford Garage, has worked his way to sales manager. Claire Cox took over Tom's old tire changing job.

Ed Delmoro is diligently working for his 150 word pin and can type faster than Mrs. Farkas at this time. This is making her job at Hudson High very insecure.

Chuck Oliver has been made the warden of a prison in Astoria, Ohio. The inmates call it the Walled Off Astoria.

Bill Vejchar has moved to Smithville where he has bought a potato farm. 1959 was Bill's greatest year. Some potatoes were as big as marbles, some as big as peas, and of course, quite a lot of little ones.

Ronnie Myers owns the largest Guernsey farm in this part of the country and displays a sign on his farm gate, stating, "Our cows aren't contented. They're always trying to do better."

Katie Gill is happily married to a peanut cluster manufacturer and has bought a 60 room house with no bath. Katie says that she wants to be "filthy rich."

Because of Darlene Bock's versatility, her father has given her the position of assistant bat and water girl for the Cleveland Indians.

Martha Krasinski is producing soap opera serials. The more popular are: "Just Plain Swill" and "Portia Gives Up."

Bob Amity has entered his favored profession, the ministry, and has left with Stanley to find Livingston.

Bob Myers is now head mechanic at Kilbourne Chevrolet Garage, which gives his father the job of head flashlight holder.

Dr. Robert Grether, eminent scientist, has formulated a new toothpaste. It's the only toothpaste that cleans your shoes as it cleans your teeth.

When word was last received from Hugh Sinclair, he was in the Navy and had reached the rank of AWOL. He was working his way to the position of court marshal.

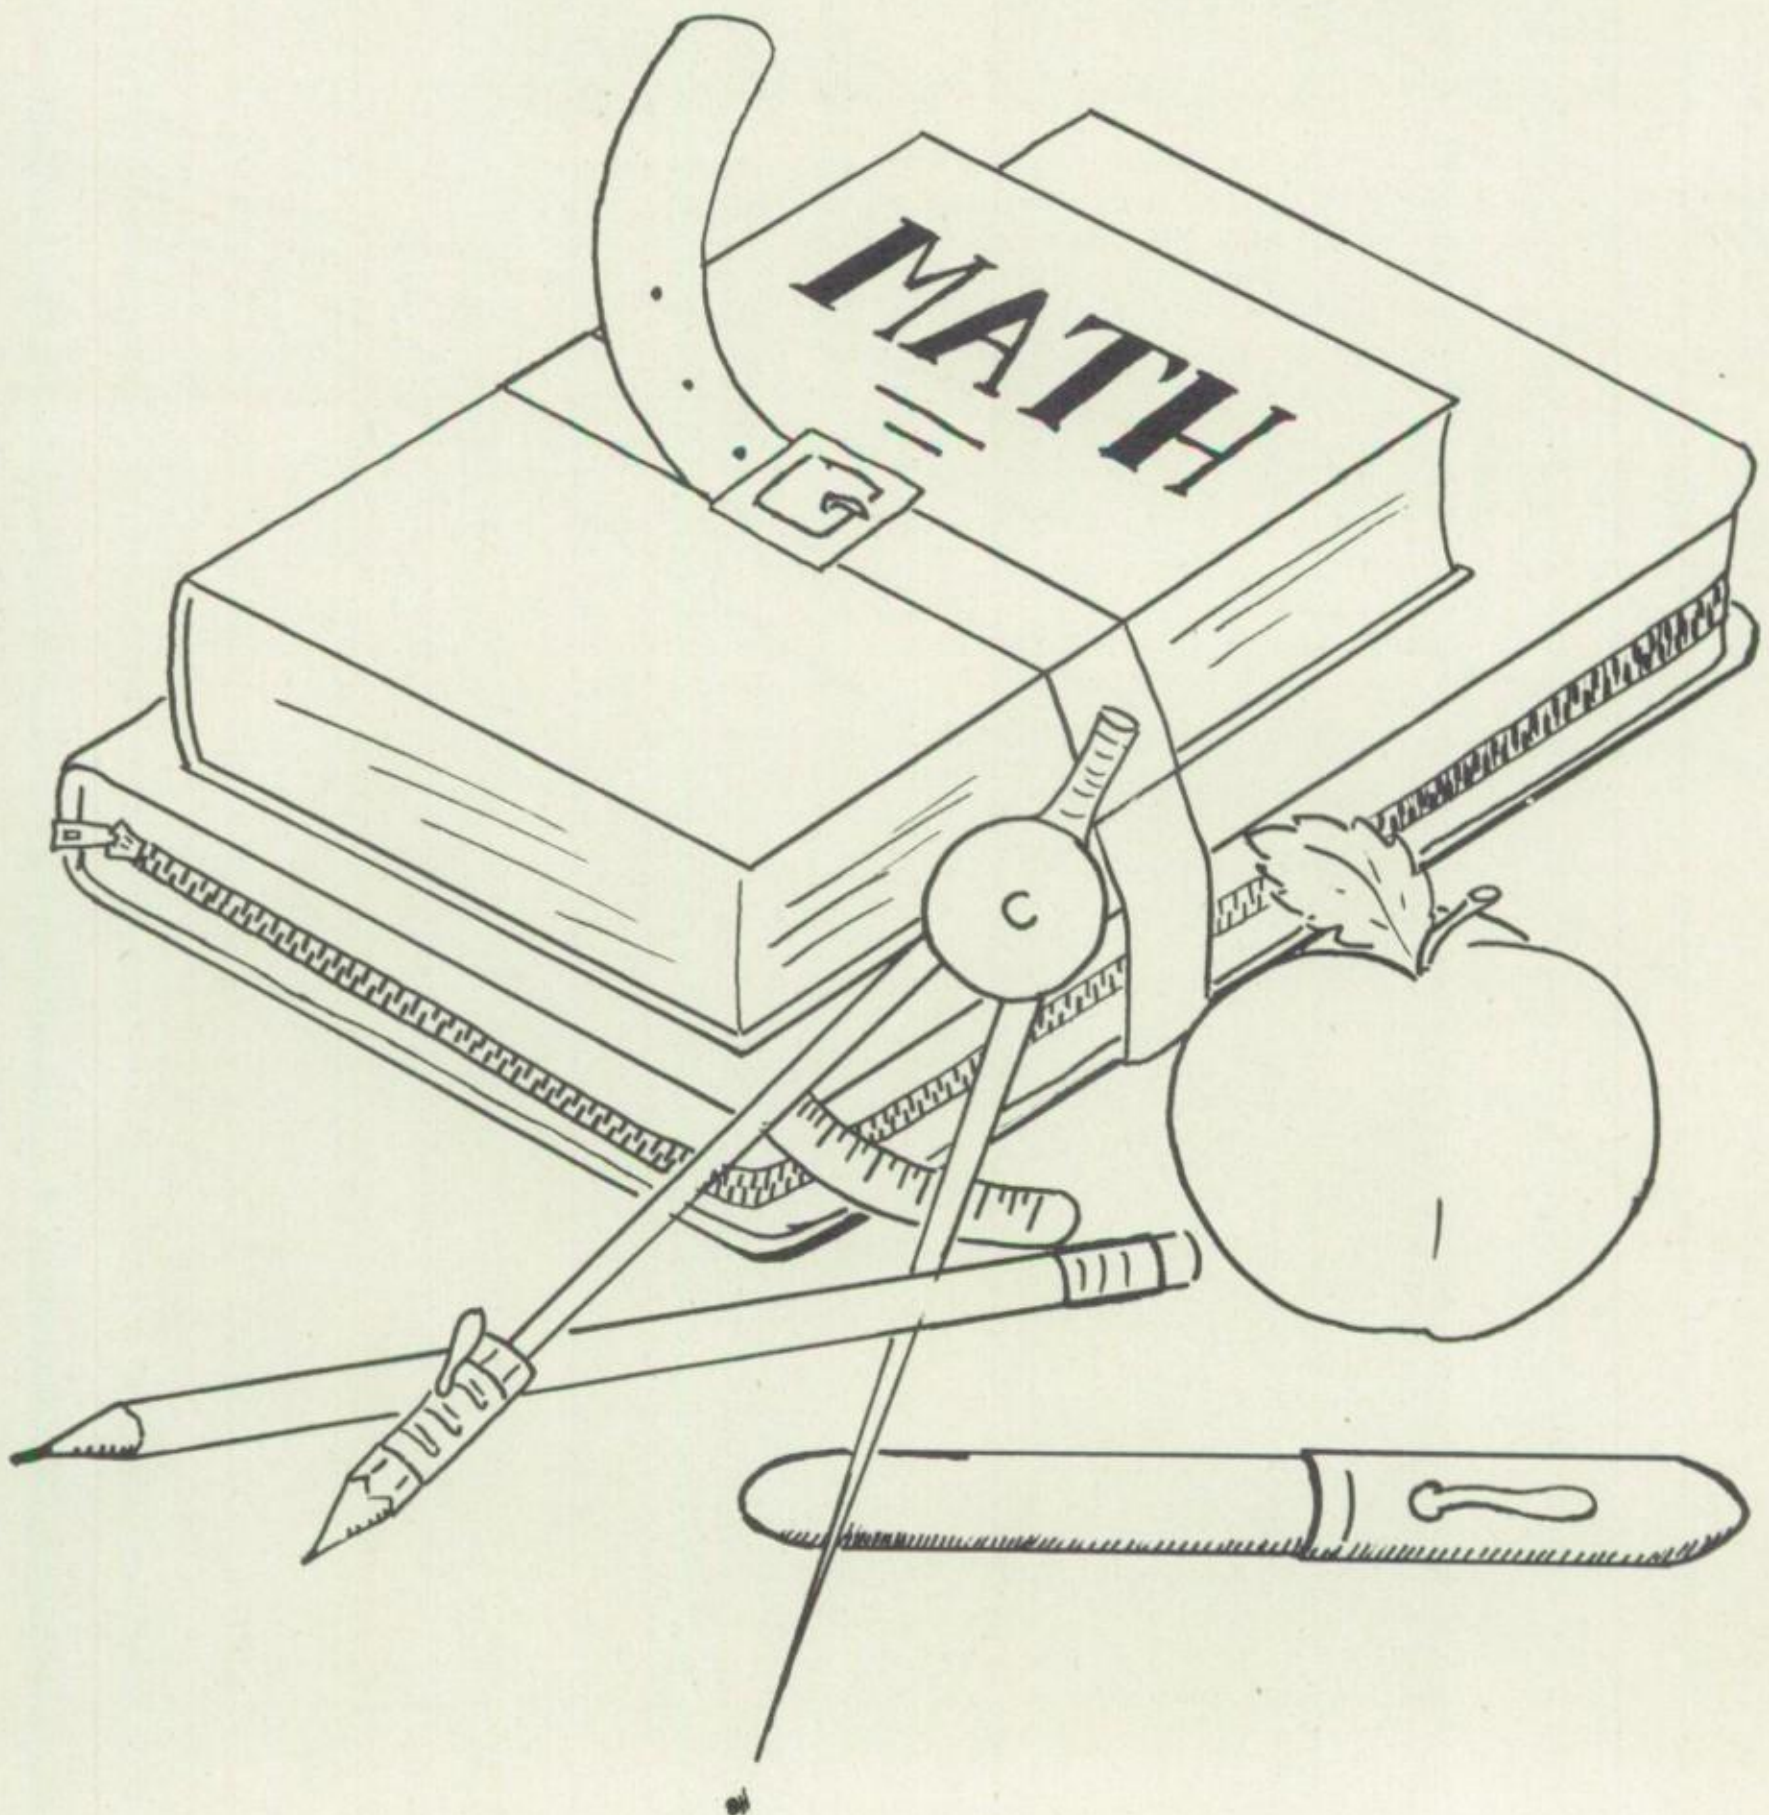

Delores Fischer has become a breeder of five hippopotami and has written a book entitled, "How to be Hippo-Critical."

Bev Hume has taken over her father's mail route and put in her requisition to have her picture put on the 3 cent stamp.

Ray Harrington is known as "Sad Sam the Silent Disc Jockey" on Darrowville's top station, WHEW. He is fighting a law suit the Seniors have filed against him for slander in the Class Prophecy.

After this most stimulating and enlightening occasion, I was standing outside the ballroom door when Mr. James W. Patterson, now enfeebled from his advisory capacities, came from behind and kicked me in -- the end.

Hilarious Comedy, "Mother Is A Freshman," Picked By Seniors

If you see a Senior walking around, making like Shakespeare, don't call a doctor. It's only that the Seniors are all trying for a part in the play, "Mother Is A Freshman." The cast has not been chosen yet, but a large number of students have signed up by Mrs. Ringler

"Mother Is A Freshman," a comedy, is the story of a girl who decides to go to college on a scholarship. She goes to College, where her father is also a student. The cause of many of the problems between the two. The rivalry is a certain one; zoology professor

Abby and her mother, Susan; Clara, who is the Associated Student Body president about spreading the word. Michaels whose mother is one of the girls in the play, a seven-letter word, who does anything to control the dorm, Helen, Carrie, and Howie, and Bill, a red college boy. A understanding completes this re-

ness the cast had been. Try-outs were held on Friday 18. Play practice soon after the try-outs.

The dinner is usually held at the Hallowell home on College Street, and entertainment is provided for the evening. We hope Hudson brings back top honors this year.

TWINSBURG HIGH HOST AT COUNTY CAREER DAY

What are you going to do when you get out of school?

This is the question that the Summit County Board of Education is trying to help the Juniors and Seniors of the Summit County Schools to decide. They have what they call a Career Day once a year for that purpose.

This year the Hudson Juniors and Seniors are going to Twinsburg High School on March 17th for a Career Day. The students from Northfield and Boston will also be there to get ideas for their future plans.

The program is set up with a welcome speech, followed by two discussion periods, after which there will be a lunch period and two more discussion periods.

Regular classes will be held that day for the seventh, eighth, ninth, and tenth grades.

After the seven candidates, Bob Grether, Shirley Pay, Dick Grether, Helen Koehler, Eddie Delmore, Marjorie Hawley, and Ray Harrington, were seated and presented with pins and roses, the choir, under the direction of Mr. John Adams, sang "In A Monastery Garden" and "Marching Along Together."

The new members repeated the pledge after Miss Parsons and the assembly was adjourned adding a new chapter to the Society. The seven students and their parents were honored by a tea following the assembly.
